SUMMER THRILLS IN YUCATAN

Yucatán is abuzz with excitement this summer as we celebrate the inaugural arrivals of two magnificent cruise ships: the Grandeur of the Seas and the Islander. These grand vessels mark a new era in our region’s tourism, bringing with them a wave of enthusiasm and opportunity.

We proudly announce the renewal of the prestigious Blue Flag certification for the beautiful beaches of Progreso, a testament to our commitment to environmental excellence.

Yucatán also made a significant impact at the recent PAMAC Summit in Jamaica, where we showcased our region's vibrant culture and growing tourism opportunities to industry leaders.

We hope you enjoy this special 30th edition, packed with the latest news and achievements that continue to make Yucatán a top destination. Happy reading!

WELCOME TO YUCATAN

MARGARITAVILLE *at Sea* ISLANDER

In an exciting development for the Yucatan region, the Port of Progreso welcomed the first visits of two new cruise ships in July. This year's cruise season is expected to be exceptional, especially with the introduction of Margaritaville at Sea's Islander operations in our state.

We have been in touch with cruise line executives to enhance their passengers' experiences in our port and hope to continue this relationship for years to come. Additionally, the arrival of Royal Caribbean's Grandeur of the Seas is a significant occasion for our port.

We are looking forward to seeing an increase in Royal Caribbean cruises visiting our port, and we are eagerly anticipating the second inaugural call from the Jewel of the Seas later this year

Port of Progreso has again been awarded the prestigious Blue Flag certification, for the 4th consecutive time, reaffirming its commitment to sustainable practices and environmental excellence. The Blue Flag certification is a testament to the port's dedication to maintaining high environmental standards and clean beaches. This achievement not only highlights Port of Progreso's ongoing efforts to promote eco-friendly tourism but also reflects its role as a responsible steward of the marine environment.
